

English 10 • **A LONG WAY GONE** • Vocabulary Set #1

**Instructions**

COMPLETE THE GRIDS BELOW for each of the following words. The definition you use should make sense in the context of the literature we are reading. List ALL word variations (parts of speech) and find at least two synonyms and two antonyms. The number of applicable word roots and prefixes/suffixes will vary with the word. Be sure that whatever root, base word, prefix or suffix you find makes sense with the definition. While this is not art class, your symbol or picture must be clearly connected to the word, accurately communicating its meaning. Lastly, your original sentence can include the vocabulary word in any form or tense but it must used *correctly* to receive full credit.
