Research Notes (on back)

ONCE YOU HAVE DEVELOPED the research questions you can begin researching. Make sure you write down all source information and page numbers. You should use this form below to write down information about your sources. You are strongly encouraged to annotate your sources just as you have done in your novels. It is very important that you interact with the source information so that you understand it and so that you can synthesize it to use in your paper. Remember that a research paper is **NOT** a bunch of quotes glued together with conjunctions!
